

GSCH040D

Portable smart battery charger

Feature

- Wide voltage input.
- Lightweight,small size design.
- Efficient,safe,and fast charging.
- Compatible with the GSX040 series of standard smart battery.
- Full safety protection functions, such as over voltage, over current,reverse connection protection, etc.

Application

- Portable equipment, Industry and medical field.

Information

Input interface	2.1φ x 5.5φ DC
Output interface	5PIN blade type smart battery interface
Operate temperature	-30°C -70°C
Charging temperature	0°C -50°C

Electrical

Input voltage	15-24VDC
Input power	≥30W
Charging voltage	12.6V
Charging current	2.0A
Maximum charging power	25.2W
Efficiency	>85%
Certification	CE / FCC

Dimensions

Length	67.0mm ± 0.3mm
Width	32.7mm ± 0.3mm
Thickness	50.6mm ± 0.3mm

LED display

Power on	Right LED light.
Charging	Left LED light.
Fully charged	Middle LED light.

Adapter selection:

GSP19V048W55210 19V / 2.5A / 47.5W MAX
