GSCH1S04

Four in one battery charger

Feature

- DC and USB-C input.
- PD fast charging protocol.
- LED charging status indication.
- Suitable for GSB1S38 battery.
- Charge 4 batteries at the same time.
- Monitor the battery temperature in real time to ensure the charging safety.
- Scientific charging curve management, highly efficient and guaranteed battery life.

Application

- Portable equipment, Industry and medical field.

Information	
Input interface	2.5φ x 5.5φ DC / USB-C
Output interface	3 PIN Metal shrapnel
Operate temperature	-30℃-70℃
Charging temperature	0℃-45℃
Electrical	
Input voltage	5-12VDC
Input power	>18W
Charging voltage	0-4.2V
Charging current	0-1.6A
Maximum charging power	6.7W （Single channel）
Efficiency	>85%
认证 / Certification	CE / FCC / RoHS
Dimensions	
Length	79.0mm ± 0.2mm
Width	79.0mm ± 0.2mm
Thickness	30.0mm ± 0.2mm
Weight	＜200g
LED display	
Power on	Middle white LED light.
Charging	Channel red LED light.
Fully charged	Channel green LED light.
Charging fault	Channel red LED flashing.
