

Model: GSCH040D

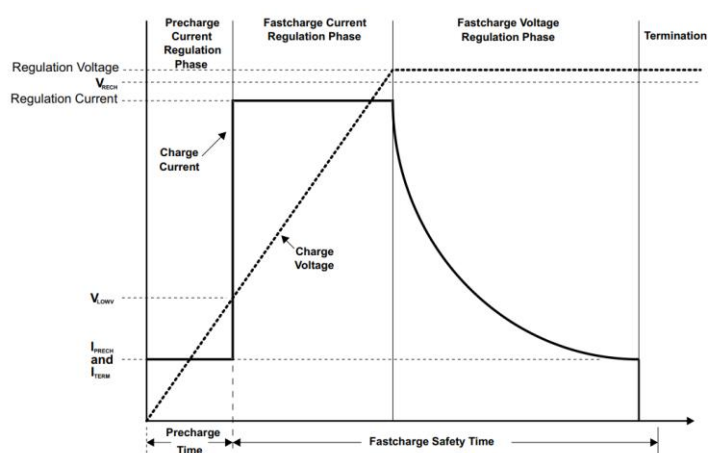

■ Features

- Lightweight and compact structure design.
- With power on, charge, full indicator light.
- Precharge - constant current - constant voltage safe and efficient charging management.
- Comprehensive safety protection functions, such as over charge, over current, over temperature, reverse connection, etc

■ Suitable Battery Model

Compatible with GSX040 series standard smart battery.

■ Charge Characteristics

■ Key Parameters

Input voltage	DC 15V~24V
Input power	≥28W
Input interface	DC φ2.1x5.5mm
Charging voltage	12.6V
Charging current	2A
Charging interface	+ / C / D / T / -
Dimensions	68.70*50.60*32.70mm
Weight	60g±5g

■ LED Display

left light on	Charging
Middle light on	Fully charged
Right light on	Power on

■ Selection Of Accessories

Recommended	Categories	Models	Purpose
	AC/DC Adapter	GSP19V048W55210	Input: AC 90V~264V Output: DC 19V/2.5A Two pin plug optional: Chinese, American (Japanese), British, European (Korean), Australian
